5. [] Met with Representative Charles Wilson (D., Calif.) and gave him an outline of the effect of certain provisions of H.R. 7199, Representative Wilson's bill on invasion of privacy of Federal employees, and a short paper on factors affecting CIA personnel security that were discussed with him on Thursday. Representative Wilson said that he would review them and that we can be assured that he has no intention of hurting the Agency. He noted in passing, however, that at least at this time he is not disposed to consider a full exemption for the Bureau.

Late in the day I received a call from Mr. Charles Gould, in the office of Representative Wilson, who said the Representative wanted us to know that he will be introducing his bill tomorrow before the Employee Benefits Subcommittee of House Post Office and Civil Service Committee without the amendments suggested in last Thursday's meeting and the discussion this afternoon. He will wait and see how matters go before the Subcommittee and consider possible amendments at a later date. I thanked Mr. Gould for Representative Wilson's courtesy in keeping us advised.

6. [] Met with Mr. Ralph Preston, House Appropriations Committee staff, and discussed with him some of the suggestions for surge funding of the Radios. In brief, it is Mr. Preston's considered judgment that funding of the Radios under a continuing resolution would terminate at the point or time when determination is made by either Committee limiting or discontinuing the funding. As for reprogramming by OMB of yearend defense funds, Mr. Preston knows of no such funds that would be available without review and approval by the congressional committees.

I briefed Mr. Preston on Salyut mission; Soviet H-III submarine; Soviet forces in the Far East, ground and air; silo construction; Soviet
